

Kids Agriculture Books

Catalogue For Educators

Children's Ag Books & Magazines

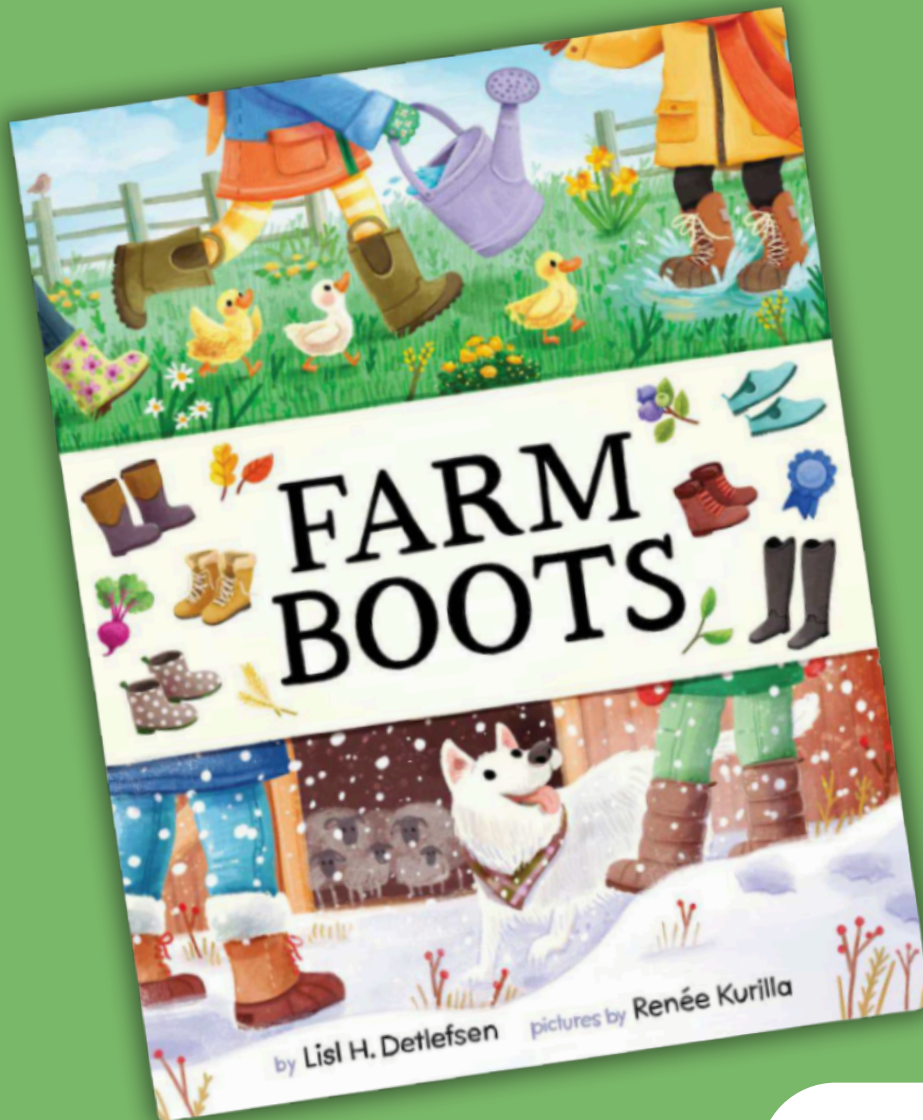

Explore American Farm Bureau's selection of 31 recommended agriculture education books and magazines for kids. Many of these resources come with educator guides that include lesson plans, coloring books, and additional materials, available online or for purchase. This catalog conveniently brings all of the books together in one place, eliminating the need to search multiple websites to find the right materials. With all 31 titles priced at approximately \$500, it's an affordable and comprehensive resource for bringing agricultural education into your classroom.

Why Ag Literacy?

Agricultural literacy goes beyond knowing where food comes from. It involves understanding the entire agricultural industry—who grows our food, how agriculture impacts the economy, environment, and technology, and the relationship between agriculture and livestock. An agriculturally literate person is equipped to appreciate the critical role agriculture plays in our daily lives and the world around us.

Ag Magazines

The Ag Mag Series from the American Farm Bureau Foundation for Agriculture offers a collection of nonfiction, newspaper-style readers designed to introduce students to various aspects of agriculture. Each Ag Mag focuses on a specific topic, such as careers in agriculture, soil science, or agricultural innovations, providing educators with valuable resources to enhance their curriculum.

These Ag Mags are ideal for classroom use, offering engaging content that aligns with educational standards and fosters a deeper understanding of agriculture among students.

For more information and to explore the full range of Ag Mags available, visit the Ag Mag Series page.

Mags!

Grants & Awards

The American Farm Bureau Foundation for Agriculture is honored to support communities with a focus on agricultural literacy through grants and awards. Thanks to the generous support of partners and donors we offer a number of opportunities and recognitions. By investing in and honoring individuals we seek to propel our overall community towards greater achievements. If you'd like to get involved or would like to learn more about grants and awards, join the mailing list with the code below!
