

Farm Bureau High School Discussion Meet Questions 2027

- 1) Looking ahead to the next decade, how can young producers take advantage of today's beef market while preparing for future uncertainty, and what policies or initiatives should Farm Bureau endorse the industry's long-term success?
- 2) What specific stressors do farmers face that contribute to mental health challenges and what are the barriers that prevent farmers from discussing mental health openly? How can Farm Bureau remove the stigma around mental health awareness, seeking help, and improving communication?
- 3) How can Farm Bureau advocate and protect agricultural lands and Farm Bureau values with the rise of data center construction while still recognizing the possible need for such infrastructure?
- 4) The agriculture industry requires a mix of both professional and vocational careers. In what ways can Idaho Farm Bureau provide support to those seeking traditional college degrees as well as those seeking vocational careers through trade school and apprenticeships?
- 5) FFA, 4H, commodity groups, and industry associations all have an impact on agriculture. How can Farm Bureau work with these ag organizations to strengthen the whole ag industry?
