

Weekly Hay Report November 22, 2021

The hay market was steady this past week with Supreme hay trading in the area of \$265 per ton. Premium hay \$250, Good hay \$245 and fair quality hay \$225 per ton. Buyers are still looking for and bidding on hay but the amount of quality hay is thin with producers taking a wait and see attitude. The dairy market is very slow with most dairies now taking delivery of contracted tonnage. The trade is expected to be slow until after the first of the year. We won't look for much to happen this week with the Thanksgiving holiday.
